

2017-2018

MRGI AT A GLANCE

Situated away from raucous sounds of Hyderabad city, MRGI epitomizes technocracy at its best. Being one of the largest campuses in Telangana, MRGI promises eventful student oriented learning. The founder chairman Sri.Ch. Malla Reddy garu began the journey as an educationalist to form the bridge between society, industry and academics. He is an un assuming dynamic leader with a keen interest in changing trends of higher education and student's employability in India. The diverse and enormous growth of the group unravels his realistic vision to cater to the needs of students in all areas of education. Education at MRGI brings all round and holistic development in students.

ABOUT MRCE

Malla Reddy College of engineering formerly CM Engineering College has been established under the aegis of the Malla Reddy Group of Institutions, a majestic empire, founded by Sri. CH. Malla Reddy garu . He has been in the field of education for the last 23 years with the intention of spearheading quality education among children from the school level itself. It is the largest cluster of technical institutions in the state of Telangana, with the student strength of 20,000 and staff strength of 2000. It is one of the largest campuses in Telangana. MRCE was established in the year 2005, and affiliated to JNTUH offering B.Tech Programs in the area of ECE, CSE, and MECH and Post graduate courses M.TECH. The College is also having Jawaharlal knowledge center (JKC), which helps the students to get placements. The faculty has the synergy of excellence in application oriented teaching, research and consultancy experience in India and overseas. The experienced faculty continuously endeavors to impart the knowledge to groom the students into industry ready engineers.

VISION OF THE INSTITUTE

To emerge as a Center of Excellence for producing professionals who shall be the leaders in technology innovation, entrepreneurship, management and in turn contribute for advancement of society and human kind.

MISSION OF THE INSTITUTE

- To provide an environment of learning in emerging technologies.
- To nurture a state of art teaching learning process and R&D culture.
- To foster networking with Alumni, Industry, Institutes of repute and other stakeholders for effective interaction.

REGISTRATION DETAILS

All the participants can pay the registration fee on the first day of programme at college.

HOW TO APPLY

The applicants should send their application in the specified format through their principal/ Sponsors to reach the coordinator on or before

The duly filled registration form is to be sent to hod@mrce.in

Last date for the submission of the Application:
14/07/2017

VENUE: Seminar Hall, MRCE.

ABOUT SEMINAR:

Using intellectual property as a means of harnessing and spreading the power of human creativity and innovation so that the people of every country, of ever community, can share their bounty

Acquisition and maintenance of an intellectual property right is meaningless if that right cannot be enforced in the marketplace. It is the threat of enforcement which allows an intellectual property right to be exploited as a commercial asset. When viewed in this context, the existence of an effective enforcement regime becomes a central aspect of a well-functioning IP system..

Two days Seminar

On

Enforcement of intellectual property rights

24th July & 25th July 2017

Conducted By

Seminar

on

“Enforcement of intellectual property rights”

Organized by

MALLA REDDY COLLEGE OF ENGINEERING

Secunderabad – 500 100

Date: 24th & 25th July 2017

Venue: Seminar Hall, MRCE

Malla Reddy College of Engineering has conducted an Awareness Camp on INTELLECTUAL PROPERTY RIGHTS 11th & 12th September 2017. *This event is organized under* the esteemed guidance of the college Management fraternity Dr.P John Paul (Principal). MRCE), Dr. T.V. Reddy (vice-principal, MRCE), the coordinator of the program Dr. T. Sunil, H.O.D – CSE. The resource person of the program was Prof. Mr. Hariharan.

Here the principal addressed the gathering about intellectual property rights in the economy In the conditions when the innovation economy is emerging, many countries of the world have chosen a totally new approach to the issues of economic growth, based on promoting knowledge acquisition, use and transfer.

The resource person Prof. HARIHARAN explained the main difference in the innovation economy or knowledge economy is that intellectual property, such as knowledge, skills, experience and particularly advanced technologies becomes an intellectual reserve of both separate businesses and the country in general, and serves as a main resource for their development. Not without reason, the world's leading companies are interested in an accelerated growth in knowledge. One of the conditions for the integration of countries with economies in transition into the new economic system is the creation of effective mechanisms for the utilization of their intellectual resources, especially those covered by intellectual property rights. Two issues become of particular importance in this connection

- Understanding the nature of the phenomenon of IP that enables using IP
 - ✓ effective resource for economic development; Devising a state IP development strategy that will become an integral part .
 - ✓ general innovative development strategy.
 - ✓

The first issue is connected with the strengthening of the economic component of IP. This is connected with the special characteristics of property relations in intellectual production that is based of knowledge of the student.

ABOUT SEMINAR:

In today's globally competitive environment, intellectual property has placed itself on a pedestal in the context of economic growth and is becoming increasingly important. Intellectual Property (IP) is the fuel that powers the engine of prosperity, fostering invention and innovation. The focus of the seminar was to promote the creation, protection & enforcement of the Intellectual Property Rights amongst various stakeholders.

Two Days Workshop

On

“Intellectual property rights in the economy”

Conducted

On

11th & 12th September 2017

Organized

By

Intellectual Property Rights (IPR) Cell

Malla Reddy College of Engineering

Malla Reddy College of Engineering has conducted an Awareness Camp on INTELLECTUAL PROPERTY RIGHTS on 11th & 12th September 2017

This event is organized under the esteemed guidance of the college Management fraternity Dr.P.John Paul (Principal MRCE), Dr.TV.Reddy (vice-principal, MRCE), the coordinator of the program Dr. T. Sunil, HOD – CSE. The resource person of the program was Prof. Mr.Hariharan.

Here the principal addressed the gathering about intellectual property rights in the economy In the conditions when the innovation economy is emerging, many countries of the world have chosen a totally new approach to the issues of economic growth, based on promoting knowledge acquisition, use and transfer.

The resource person prof. HARIHARAN explained the main difference in the innovation economy or knowledge economy is that intellectual property, such as knowledge, skills, experience and particularly advanced technologies becomes an intellectual reserve of both separate businesses and the country in general, and serves as a main resource for their development. Not without reason, the world's leading companies are interested in an accelerated growth in knowledge. One of the conditions for the integration of countries with economies in transition into the new economic system is the creation of effective mechanisms for the utilization of their intellectual resources, especially those covered by intellectual property rights.

Two issues become of particular importance in this connection

1 : Understanding the nature of the phenomenon of IP that enables using IP

- Effective resource for economic development; Devising a state IP development strategy that will become an integral part .
- General innovative development strategy.

The first issue is connected with the strengthening of the economic component of IP. This is connected with the special characteristics of property relations in intellectual production that is based on knowledge of the student.

MRGI AT A GLANCE

Situated away from raucous sounds of Hyderabad city, MRGI epitomizes technocracy at its best. Being one of the largest campuses in Telangana, MRGI promises eventful student oriented learning. The founder chairman Sri.Ch. Malla Reddy garu began the journey as an educationalist to form the bridge between society, industry and academics. He is an un assuming dynamic leader with a keen interest in changing trends of higher education and student's employability in India. The diverse and enormous growth of the group unravels his realistic vision to cater to the needs of students in all areas of education. Education at MRGI brings all round and holistic development in students.

ABOUT MRCE

Malla Reddy College of engineering formerly CM Engineering College has been established under the aegis of the Malla Reddy Group of Institutions, a majestic empire, founded by Sri. CH. Malla Reddy garu . He has been in the field of education for the last 23 years with the intention of spearheading quality education among children from the school level itself. It is the largest cluster of technical institutions in the state of Telangana, with the student strength of 20,000 and staff strength of 2000. It is one of the largest campuses in Telangana. MRCE was established in the year 2005, and affiliated to JNTUH offering B.Tech Programs in the area of ECE, CSE, and MECH and Post graduate courses M.TECH. The College is also having Jawaharlal knowledge center (JKC), which helps the students to get placements. The faculty has the synergy of excellence in application oriented teaching, research and consultancy experience in India and overseas. The experienced faculty continuously endeavors to impart the knowledge to groom the students into industry ready engineers.

VISION OF THE INSTITUTE

To emerge as a Center of Excellence for producing professionals who shall be the leaders in technology innovation, entrepreneurship, management and in turn contribute for advancement of society and human kind.

MISSION OF THE INSTITUTE

- To provide an environment of learning in emerging technologies.
- To nurture a state of art teaching learning process and R&D culture.
- To foster networking with Alumni, Industry, Institutes of repute and other stakeholders for effective interaction.

REGISTRATION DETAILS

All the participants can pay the registration fee on the first day of programme at college.

HOW TO APPLY

The applicants should send their application in the specified format through their principal/ Sponsors to reach the coordinator on or before

The duly filled registration form is to be sent to hod@mrce.in

Last date for the submission of the Application:
28/11/2017

VENUE: Seminar Hall, MRCE.

ABOUT SEMINAR:

Entrepreneurship and innovation are increasingly important in all areas of business and government. Entrepreneurial start-ups galvanize the economy by identifying new opportunities and redirecting resources to them.

Established firms innovate in order to outmaneuver or respond to their competition. And in the public sector, the need for effective policies to deal with new challenges and for increasing service delivery with declining budgets also places a premium on innovative thinking.

The seminar focuses on the skills necessary for the planning, development and launch of entrepreneurial and innovative ventures.

Two Days Workshop

On

“Intellectual property rights in enhancing the competitiveness of industrial enterprises”

Conducted

On

07th & 08th December 2017

Organized

By

Intellectual Property Rights (IPR) Cell

Malla Reddy College of Engineering

Malla Reddy College of Engineering has conducted an Awareness Camp on INTELLECTUAL PROPERTY RIGHTS on 11th & 12th September 2017

This event is organized under the esteemed guidance of the college Management fraternity Dr.P.John Paul (Principal MRCE), Dr.TV.Reddy (vice-principal, MRCE), the coordinator of the program Dr. T. Sunil, HOD – CSE. The resource person of the program was Prof. Mr.Hariharan.

Here the principal addressed the gathering about intellectual property rights in the economy In the conditions when the innovation economy is emerging, many countries of the world have chosen a totally new approach to the issues of economic growth, based on promoting knowledge acquisition, use and transfer.

The resource person prof. HARIHARAN explained the main difference in the innovation economy or knowledge economy is that intellectual property, such as knowledge, skills, experience and particularly advanced technologies becomes an intellectual reserve of both separate businesses and the country in general, and serves as a main resource for their development. Not without reason, the world's leading companies are interested in an accelerated growth in knowledge. One of the conditions for the integration of countries with economies in transition into the new economic system is the creation of effective mechanisms for the utilization of their intellectual resources, especially those covered by intellectual property rights.

Two issues become of particular importance in this connection

1 : Understanding the nature of the phenomenon of IP that enables using IP

- Effective resource for economic development; Devising a state IP development strategy that will become an integral part .
- General innovative development strategy.

The first issue is connected with the strengthening of the economic component of IP. This is connected with the special characteristics of property relations in intellectual production that is based on knowledge of the student.

MRGI AT A GLANCE

Situated away from raucous sounds of Hyderabad city, MRGI epitomizes technocracy at its best. Being one of the largest campuses in Telangana, MRGI promises eventful student oriented learning. The founder chairman Sri.Ch. Malla Reddy garu began the journey as an educationalist to form the bridge between society, industry and academics. He is an un assuming dynamic leader with a keen interest in changing trends of higher education and student's employability in India. The diverse and enormous growth of the group unravels his realistic vision to cater to the needs of students in all areas of education. Education at MRGI brings all round and holistic development in students.

ABOUT MRCE

Malla Reddy College of engineering formerly CM Engineering College has been established under the aegis of the Malla Reddy Group of Institutions, a majestic empire, founded by Sri. CH. Malla Reddy garu . He has been in the field of education for the last 23 years with the intention of spearheading quality education among children from the school level itself. It is the largest cluster of technical institutions in the state of Telangana, with the student strength of 20,000 and staff strength of 2000. It is one of the largest campuses in Telangana. MRCE was established in the year 2005, and affiliated to JNTUH offering B.Tech Programs in the area of ECE, CSE, and MECH and Post graduate courses M.TECH. The College is also having Jawaharlal knowledge center (JKC), which helps the students to get placements. The faculty has the synergy of excellence in application oriented teaching, research and consultancy experience in India and overseas. The experienced faculty continuously endeavors to impart the knowledge to groom the students into industry ready engineers.

VISION OF THE INSTITUTE

To emerge as a Center of Excellence for producing professionals who shall be the leaders in technology innovation, entrepreneurship, management and in turn contribute for advancement of society and human kind.

MISSION OF THE INSTITUTE

- To provide an environment of learning in emerging technologies.
- To nurture a state of art teaching learning process and R&D culture.
- To foster networking with Alumni, Industry, Institutes of repute and other stakeholders for effective interaction.

REGISTRATION DETAILS

All the participants can pay the registration fee on the first day of programme at college.

HOW TO APPLY

The applicants should send their application in the specified format through their principal/ Sponsors to reach the coordinator on or before

The duly filled registration form is to be sent to hod@mrce.in

Last date for the submission of the Application:
01/02/2018

VENUE: Seminar Hall, MRCE.

ABOUT SEMINAR:

One of the major functions of the patent system is the dissemination of technical information. Patent information is a valuable and comprehensive source of technical, commercial and legal information that can be used directly for scientific and experimental purposes and as a basis for stimulating the adaptation and improvement of the technology described in patent documents immediately after their publication.

MRCE
Hyderabad.

Subject: Accepting an invitation for *Two days Seminar on "Innovations and Patents"*.

Dear Dr.T.Sunil,

I am really honored to be a part of this program to be held at **MRCE** on **07th to 08th FEBRUARY 2018**. I am glad that I was chosen for this seminar. I thank you for this opportunity. I am looking forward to be a part of this program.

Thanks and Regards,
Dr.vivek Bhojwani

TWO DAYS WORKSHOP

On

INNOVATIONS AND PATENTS

Organized by

MALLA REDDY COLLEGE OF ENGINEERING

On

7th February & 08th February 2018

VENUE- CENTRAL SEMINAR HALL

Malla Reddy College of Engineering has conducted an Awareness Camp on Workshop On **innovations and patents**.

THIS EVENT IS ORGANIZED UNDER THE ESTEEMED GUIDANCE OF THE COLLEGE MANAGEMENT FRATERNITY DR.P JOHN PAUL (PRINCIPAL MRCE), DR.TV.REDDY (VICE-PRINCIPAL, MRCE), THE COORDINATOR OF THE PROGRAM DR. T. SUNIL, HOD – CSE. The resource person of the program was Dr.vivek Bhojwani.

On this occasion principal Dr.P.John paul addressed saying it's a tradition in economic history, which primarily relies on qualitative evidence and statistical correlations, has emphasized the importance of patents as a primary driver of innovation. Recent improvements in empirical methodology – through the creation of new data sets and advances in identification – have produced research that challenges this traditional view. The findings of this provide a more nuanced view of the effects of intellectual property, and suggest that when patent rights have been too broad or strong, they have actually discouraged innovation.

Dr.vivek Bhojwani addressed as Mobile Technologies, Inc. (MTI) is the global leader in mobile device display technologies. Our innovations are embodied in our Intellectual Property, which includes our patents, trademarks, copyrights, trade secrets, trade dress, and related intellectual property rights. MTI is dedicated to using innovation to consistently provide customers with the most up-to-date technology for securing and displaying merchandising. MTI respects the intellectual property rights of others, and requests that others not use MTI's Intellectual Property without written permission.

Inventions are the bedrock of innovation. An invention is a new solution to a technical problem and can be protected through patents. Patents protect the interests of inventors whose technologies are truly groundbreaking and commercially successful, by ensuring that an inventor can control the commercial use of their invention.

An individual or company that holds a patent has the right to prevent others from making, selling, retailing, or importing that technology. This creates opportunities for inventors to sell, trade or license their patented technologies with others who may want to use them.

The criteria that need to be satisfied to obtain a patent are set out in national IP laws and may differ from one country to another. But generally, to obtain a patent an inventor needs to demonstrate that their technology is new (novel), useful and not obvious to someone working in the related field. To do this, they are required to describe how their technology works and what it can do.

A patent can last up to 20 years, but the patent holder usually has to pay certain fees periodically throughout that 20-year period for the patent to remain valid. In practice, this means that if a technology has limited commercial value, the patent holder may decide to abandon the patent, at which point the technology falls into the public domain and may be freely used.
