**A Report on a one day (online)
National Level Physics Faculty
Development Program on
“Current Trends in Electronic
Materials”**

**ORGANIZED BY DEPARTMENT OF HUMANITIES AND SCIENCES
(PHYSICS)
MALLA REDDY COLLEGE OF ENGINEERING, HYDERABAD**

Date: 25-01-2025 | Time: 10:30am -12:30pm | Saturday

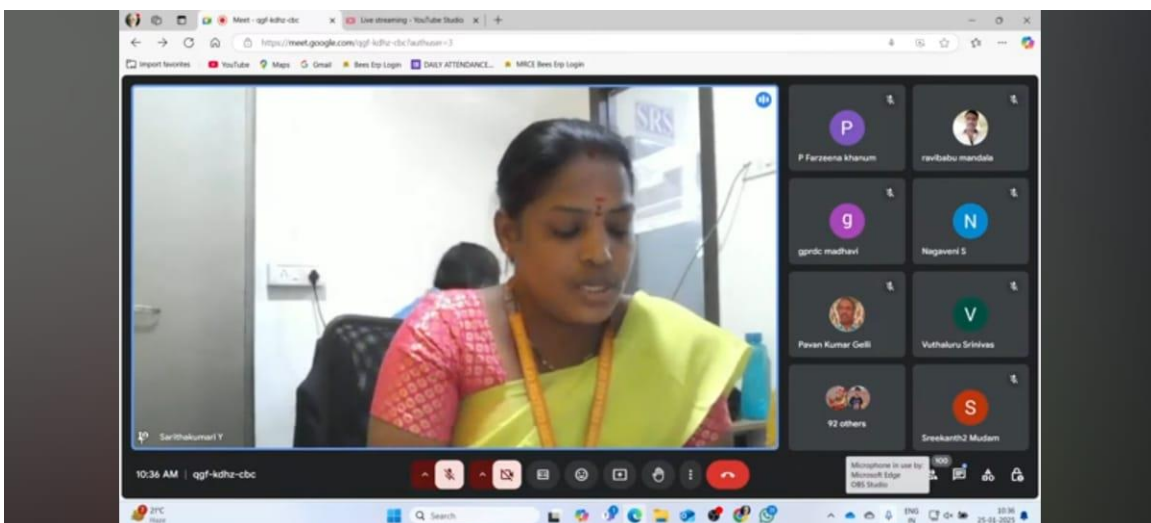

Introduction

The Faculty Development Program (FDP) on "Current Trends in Electronic Materials" was conducted on 25th January 2025, aimed at equipping faculty members from various institutions with the latest advancements in electronic materials and processing technologies. The program was organized online, making it accessible to faculty across India and beyond.

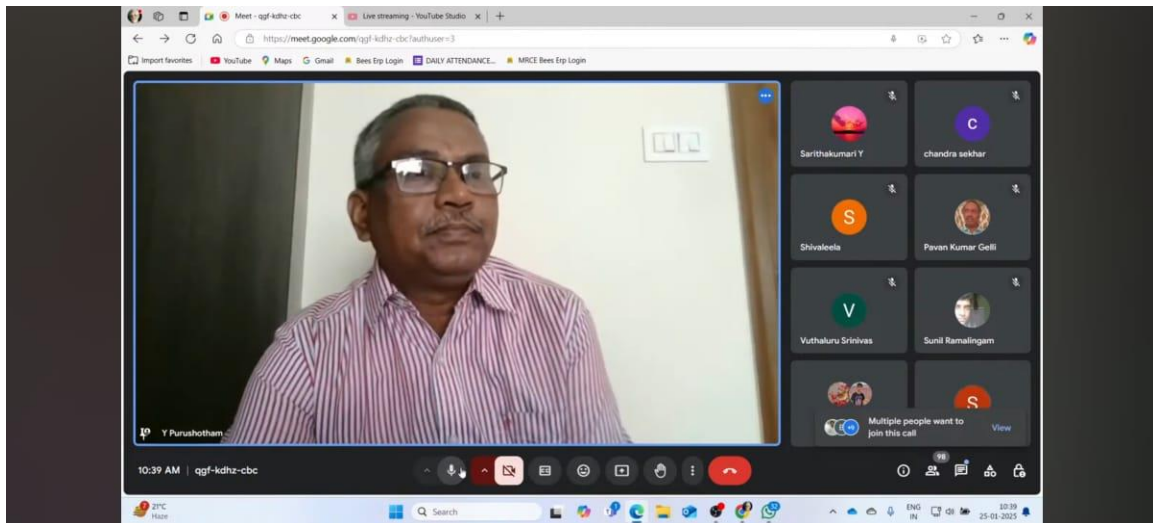

Event Details

The session was held from 10:30 AM to 12:30 PM and witnessed the participation of 289 faculty members from diverse states in India, including Telangana, Andhra Pradesh, Tamil Nādu, Karnataka, Uttarakhand, Uttar Pradesh, Punjab, Maharashtra, Madhya Pradesh, Chhattisgarh, West Bengal, Odisha, Assam, Gujarat, Kerala, and Rajasthan. In addition to Indian participants, faculty members from Bangladesh and Oman also joined the session.

Resource Person

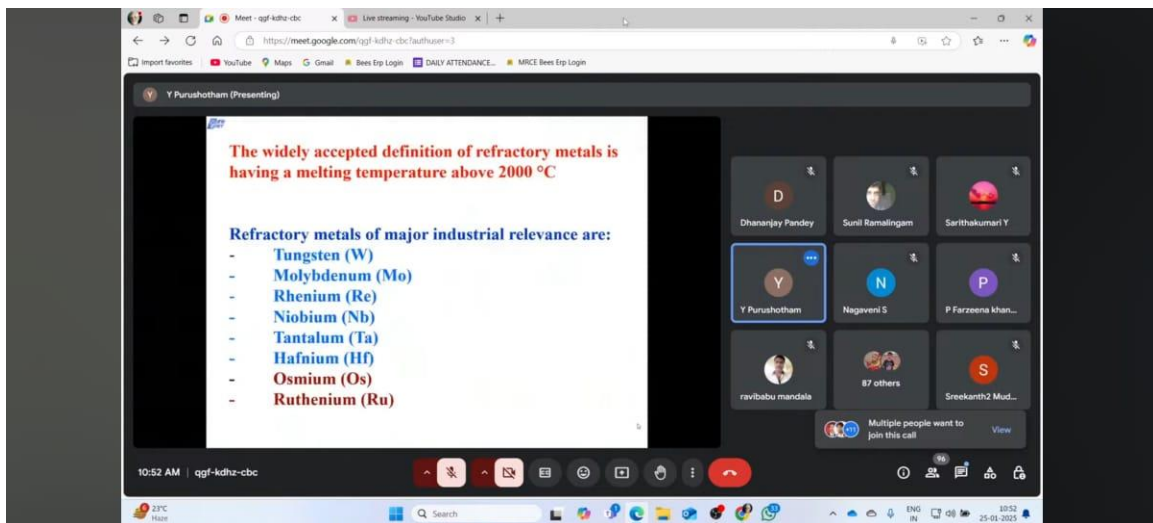

Dr. Y. Purushotham, Scientist-F at C-MET, Hyderabad, was the esteemed resource person for the session. With an illustrious academic and professional background in Physics, Dr. Purushotham has been involved in numerous groundbreaking projects related to materials science. His work at C-MET, particularly in the development and processing of ultra-high-purity metals, has been widely recognized in strategic sectors. He holds a Ph.D. in Physics from Osmania University, with over 70 publications and two patents to his name. His profile showcases an extensive array of achievements in electronic materials and technology transfer to the industry.

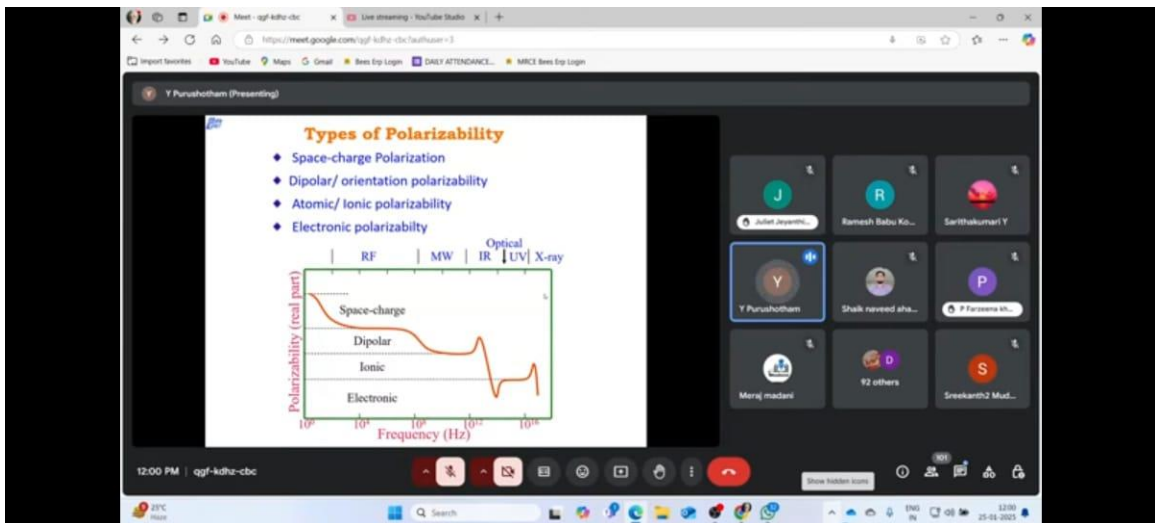

FDP Content Overview

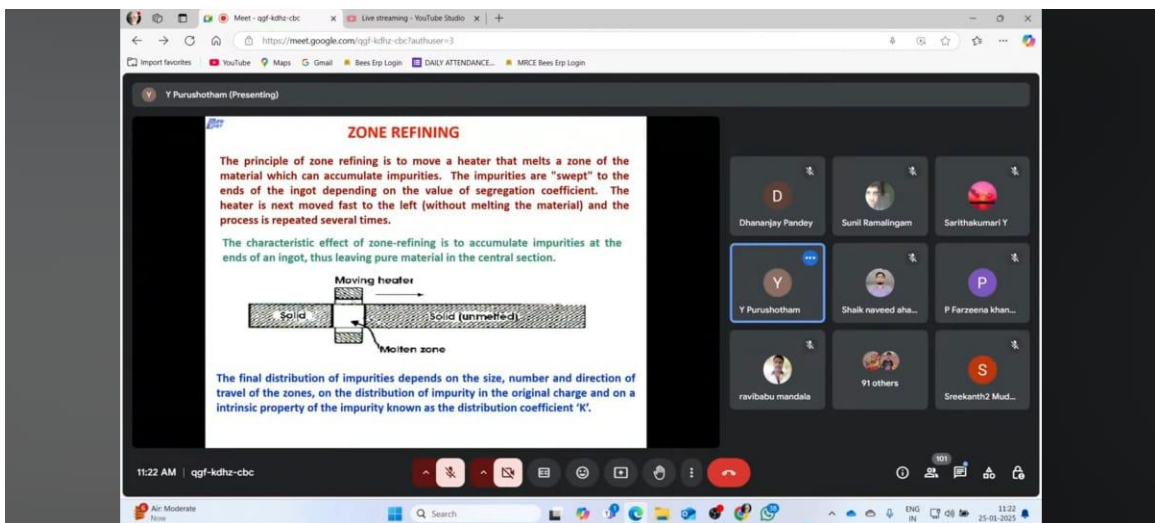

Dr. Purushottam's presentation focused on **“Electronic Materials and Processing Technologies”**, covering the following key topics:

- The role of **C-MET** in developing critical electronic materials for India's electronics and defense sectors.

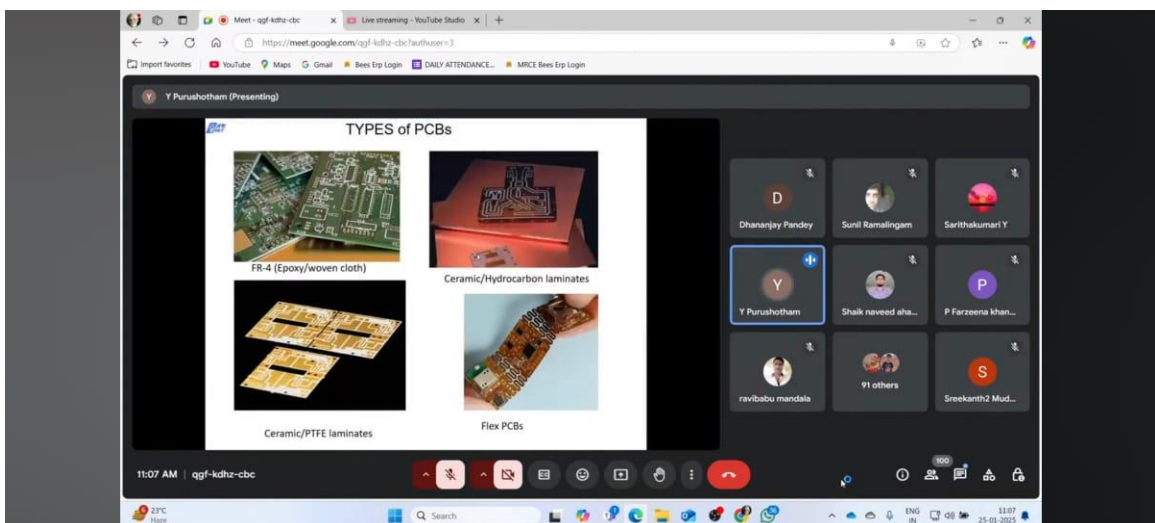

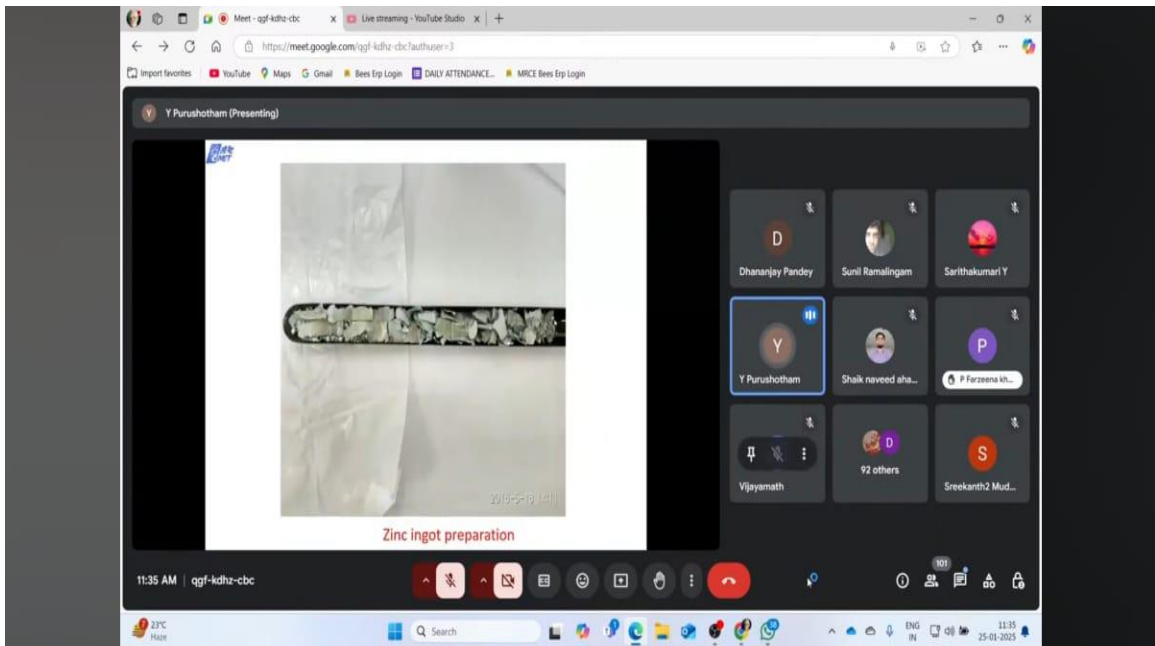

- The impact of **e-waste** management on material recycling and sustainability.

- Applications of ultra-high-purity metals in areas such as **semiconductors**, **optoelectronics**, and **night vision technology**.

- Cutting-edge **research methodologies** used in developing these advanced materials.

- **Processing technologies** for high-purity metals and alloys such as Tantalum, Niobium, Hafnium, and Zinc, crucial for strategic defense and aerospace applications.

Key Takeaways

- The **critical importance** of developing indigenous technologies in high-purity metal processing.
- Understanding **applications** of materials in modern technology, especially in **space and defense** sectors.
- Insight into **purification processes** like zone refining, distillation, and other advanced techniques used to achieve ultra-high purity levels in metals.
- Opportunities for students and faculty to engage in further research, including Ph.D. programs at C-MET.

Conclusion

The FDP provided valuable insights into the latest trends and technologies in electronic materials, equipping participants with the knowledge to foster future research and development in their institutions. The involvement of a distinguished scientist like Dr. Y. Purushotham added immense value to the program, making it an enriching experience for all attendees.

Acknowledgments

The success of the FDP would not have been possible without the active participation of the 289 faculty members and the support from the organizing committee. Special thanks to Dr. Purushotham for his expert guidance and for taking the time to share his knowledge.

To
The principal
Malla Reddy College of Engineering
Maisammaguda,
Hyderabad.

Respected Sir,

Sub: Request for the permission to conduct one-day online physics FDP program-reg.

We, the faculty of physics from H.&S. Dept. would like to conduct one-day online FDP program on the topic "Current trends in Electronic Materials" on 25th January, 2025.

Hence, we request you to permit us to conduct the above said program.

Thanking you ,

Regards,
Convener
Dr. Sneha Joshi
Head.H.&SDept.

About MRCE

Malla Reddy College of Engineering the jewel in the crown of Malla Reddy Group of Institutions (MRGI) was established in the year 2005 with the approval from AICTE, permanent affiliation to JNTUH, accredited by NBA & NAAC. The college is located at Maisammaguda, Dhulapally, Secunderabad, Telangana, India.

The institute offers B. Tech courses in Computer Science & Engineering, CSE(Data Science), CSE(Artificial intelligence & Machine Learning) and ECE branches. Malla Reddy College of Engineering has been laid upon a very strong foundation and has ever since been excelling in every aspect. The bricks of this able institute are certainly the adept management, the experienced faculty, the selfless non-teaching staff and of course the students.

Vision of Institute

To emerge as a Center of Excellence for producing professionals who shall be the leaders in technology innovation, entrepreneurship, management and in turn contribute for advancement of society and humankind.

Mission of Institute

To provide an environment of learning in emerging technologies.

To nurture a state of art teaching learning process and R&D culture.

To foster networking with Alumni, Industry, Institutes of repute and other stakeholders for effective interaction.

To practice and promote high standards of ethical values through societal commitment.

About the department of Humanities & Sciences(MRCE)

The Department of Humanities and Sciences (H&S) is one of the earliest Departments at MRCE established in the year 2005. The Department of Humanities and Sciences (H&S) offers basic Engineering Mathematics, Physics, Chemistry and English among others subjects for U.G students of all B. Tech courses at first year level. The Department of H&S aims at encouraging advanced teaching learning process and quality research at individual, department, and institutional level.

It also persistently strives to build quality-based knowledge and human resource capacity, to conduct academic programs every time and again in the emerging areas of engineering and technology.

The Department of H&S is continuously working to provide a foundation for engineering studies and communication skills. We have well experienced and qualified Faculty members as per the AICTE, Delhi and JNTU, Hyderabad requirements.

Dear Sir,

We, Malla Reddy College of Engineering , are planning to conduct a One day National level Faculty development program on " current trends in Electronic materials" over a virtual platform- Google meet, on 25th January, 2025 .

In this regard we would like to invite you as a Resource Person to give insight and professional expertise to all attending faculty members.

Kindly accept our Invitation and confirm the date.

Thanking you sir,

With regards

PRINCIPAL

Brief Profile **Dr.Y. PURUSHOTHAM**

Scientist F

Centre for Materials for Electronics Technology (C-MET), Hyderabad – 500 051
[Ministry of Electronics and Information Technology (MeitY), Govt.of India]

EDUCATION:

B.Sc. (M. P.C.)	1989	Osmania University	1 st class
M.Sc. (Physics)	1991	Kakatiya University	1 st class, 8 th Rank
Ph.D. (Physics)	1996	Osmania University	-
Thesis Title “Influence of monovalent and divalent additions on magnetic, electrical and elastic behaviour of Sr Zn-W hexagonal ferrites”			

ACHIEVEMENTS:

- Established automated induction zone refining system, developed ultra high pure 7N Germanium, supplied 5Kg 7N Ge ingots to SSPL, DRDO
- Developed ultra high pure 7N Zinc, converted into < 3 mm diameter granules, supplied 1 Kg to IGCAR, Kalpakkam.
- Automation of Hafnium process plant, established Kroll’s reduction facility for extended pilot scale preparation of Hafnium metal. 35 Kg Hafnium reduced mass and 15 Kg Hafnium metal sponge prepared.
- Synthesis and characterization of ZnO, Zns nano materials and Ni-Zn nano ferrites
- Established high temperature microwave sintering furnace and made it suitable for sintering of refractory metal and ceramic powders
- Hafnium metal sponge by Kroll’s reduction and Mg distillation processes. Demonstration of process technologies to VSSC.
- Niobium metal by Alumino thermic reduction and hydriding-dehydriding process for EB melting.
- Technology transfer of Structural Grade Tantalum powder to M/s Anabond Limited, Chennai and Sodium Reduction Process demonstration at 3 Kg batch size.
- Supplied 35 Kg Tantalum powder to DMRL, Hyderabad
- Automation of Sodium Reduction System and quality improvement in Tantalum metal powder

AWARDS and HONORS

Senior Research Fellowship (1995-96): Council of Scientific & Industrial Research (CSIR), Govt.of India.

Research Associate (1996-98): Council of Scientific & Industrial Research (CSIR), Govt.of India.

Young Researcher Award for best paper presentation during the 4th IUMRS International Conference in Asia, OVTA, Makuhari, Chiba, Japan, September 16-18, 1997.

BOYSCAST Fellowship (2002-2003): Department of Science & Technology (DST), Govt.of India.

Visiting Scientist (June 10, 2002 – June 1, 2003) at Microwave Processing and Engineering Center, Materials Research Laboratory Building, Materials Research Institute, The Pennsylvania State University, USA.

Biography listed in the following Publications of M/s Marquis Who’s Who (USA) (2002 - 2012): i) Who’s Who in Science and Engineering & ii) Who’s Who in the World

Associate Fellow: Andhra Pradesh Akademi of Sciences (2004)

Executive Member: MRSI, Hyderabad Chapter (2005 to 2013)

Convener, MRSI, Hyderabad Chapter (2015 to till date)

Fellow, Telangana Academy of Sciences (2016)

Organizing Secretary: Telangana State Science Congress 2018, December 22-24, 2018, NIT Warangal

Hon Treasurer: Telangana Academy of Sciences (2018-2023)

Hon Treasurer: IIM, Hyderabad Chapter (2012-2014), (2018-2020)

Organizer & Resource person: More than 60 each National and International Seminars/workshops/conferences/lectures

Executive Member: IIM, Hyderabad Chapter (2020-till date)

Best Project Execution Award received from Hon’ble Raksha Mantri Shri Rajnath Singh ji on 25th May 2023 during DRDO-Academia Conclave held during 25-26 May 2023 at DRDO Bhawan, New Delhi

Best POSTER presentation prize received in the category of Powder Metallurgy and Additive Manufacturing (PMA) in the Indian Institute of Metals Annual Technical Meeting (IIM ATM 2024) held during 20-22 November 2024, Bengaluru..

Outcome of the Program

The FDP on "Current Trends in Electronic Materials" resulted in several significant outcomes:

1. **Enhanced Knowledge Base:**

Participants gained a deeper understanding of advanced materials like Tantalum, Niobium, Hafnium, and Zinc, as well as their applications in cutting-edge technologies such as space exploration, defense, and semiconductor industries.

2. **Awareness of Emerging Technologies:**

Faculty members were introduced to the latest techniques in electronic material processing, including zone refining, vacuum distillation, and purification technologies critical for achieving ultra-high purity metals.

3. **Interdisciplinary Insights:**

The session bridged knowledge gaps between physics, materials science, and engineering, encouraging faculty to incorporate these insights into their teaching and research.

4. **Global Collaboration:**

The participation of faculty members from various states across India and international attendees from Bangladesh and Oman highlighted the program's broad reach, fostering cross-border knowledge exchange.

5. **Opportunities for Research:**

Participants were made aware of collaborative research opportunities with C-MET, including Ph.D. programs and potential industry projects.

6. **Focus on Sustainability:**

The session highlighted the importance of e-waste management and recycling technologies, inspiring participants to focus on sustainable practices in material sciences.

7. **Networking and Collaboration:**

The FDP served as a platform for faculty members to network with peers, share insights, and explore collaborative opportunities in research and academia.
