

A REPORT ON SEMINAR (WELL BEING OUT OF WASTE) “A STEP TOWARDS CIRCULAR ECONOMY”

INTRODUCTION

A seminar on wellbeing out of waste was held in our college on 23rd December 2023 to create awareness among the students about the hazardous effects of solid wet and e-waste on the environment and the importance of recycling of all waste. The session was organized by Dr.K.MADHAVI faculty of chemistry department of H&S with the support of HOD H&S Dr.SNEHA JOSHI, and Principal MRCE Dr. M.ASHOK in collaboration with the **‘well being out of waste’ -Earth Box Green Tomorrow.**

OBJECTIVES

The primary objective of the session was to educate students on the need for proper disposal and recycling of waste to reduce its impacts on the environment . it aimed to increase awareness among students about the hazardous effects of all waste on health and environmental practices.

MOU(MEMORANDAM OF UNDERSTANDING)

One of the important decision made on this day(23rd December 2023) was the signing of the MOU (memorandum of understanding) is made and executed by and between the MALLA REDDY COLLEGE OF ENGINEERING Dhulapally -Hyderabad. Represented by the Principal MRCE Dr.M.ASHOK and EARTH BOX ventures private Ltd, an authorized agency of ITC, represented by Ch.Raju Managing Director earthbox, Ltd

THE SESSION

The session was led by Mrs.POLENI SUDHA garu project manager (WOW) EARTH BOX GREEN TOMORROW-Hyderabad project, who gave an informative presentation on waste management and A STEP TOWARDS CIRCULAR ECONOMY. She spoke about the need for waste recycling the hazards of improper disposal and the importance of reducing waste generation. She also shared some interesting facts about solid wet and e-waste and its impact on the environment.

After the presentation there was an interactive session where students had the opportunity to ask questions and share their views on waste management. The speaker classified their doubts and addressed their Concerns. The students were also shown some videos and slides on waste recycling and the proper disposal of it.

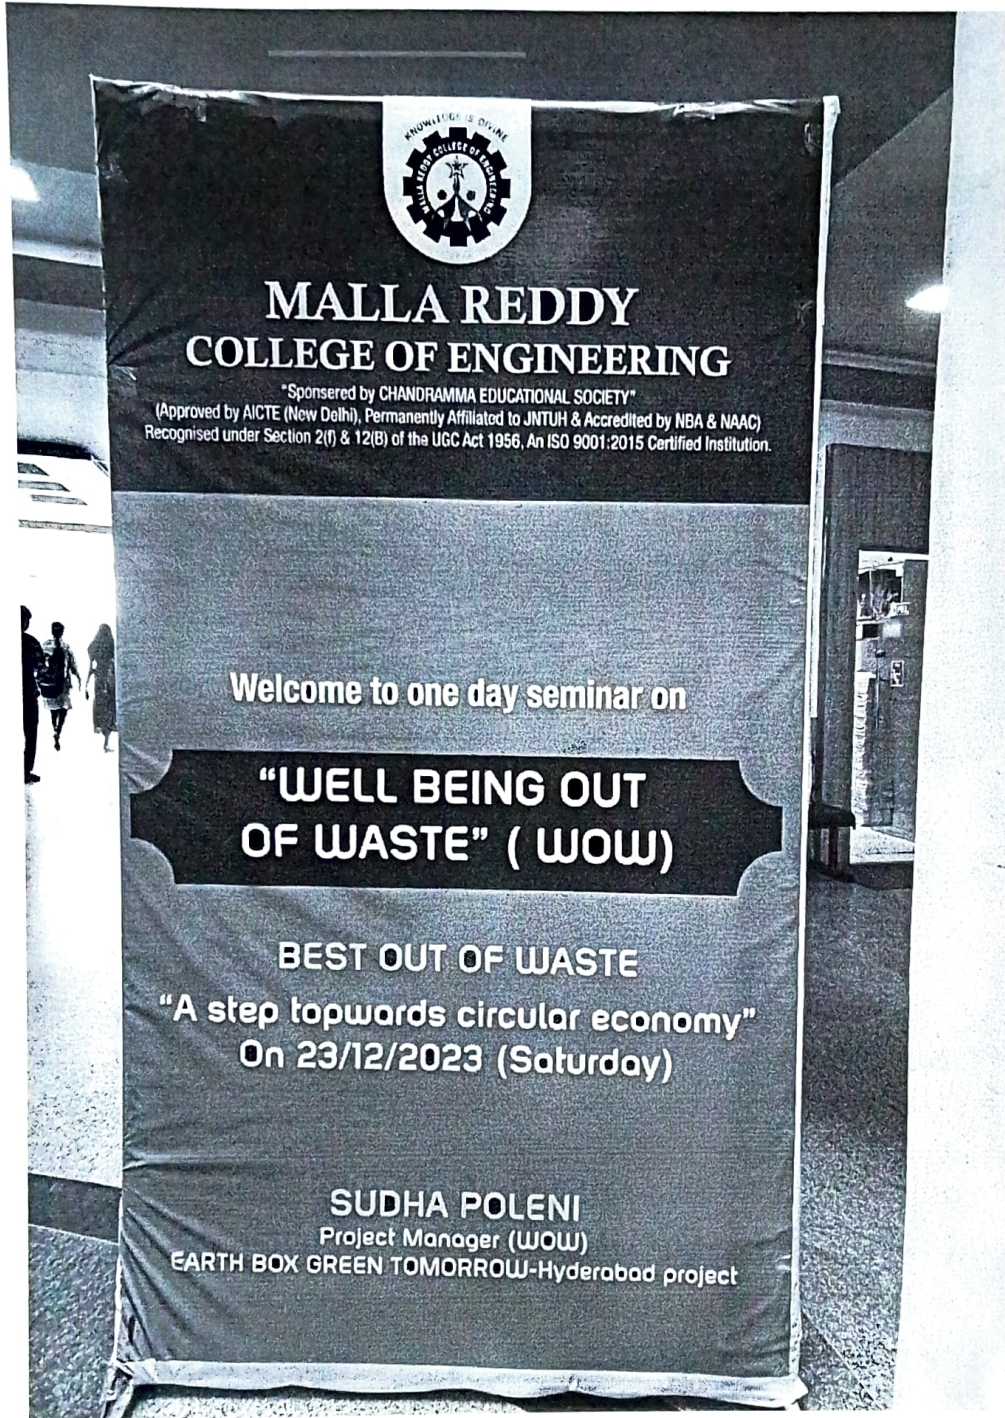

OUTCOME (FEEDBACK FROM STUDENTS)

The waste management session was a great success and it achieved its objectives of creating awareness among students about the hazardous of waste and need for proper recycling. The session provided students with valuable information about waste management practices. The students are happy with the initiative taken by the college.

CONCLUSION

In conclusion the session was a great learning experience for the students and it has motivated them to become responsible citizens by adopting sustainable waste management practices. Such initiatives should be encouraged and promoted by educational institutions to create a cleaner and healthier environment for future generations.
