'Hard work beats talent when talent doesn't work hard."

M S Srinivasa Training Manager Profile

M S Srinivasa is the Training manager for South states (Karnataka & Telangana) from EBSCO Information Services (IEEE official training partner in India). He is a graduate in B.E(EEE) from SBMJCE and postgraduate in Digital Electronics from CMRIT, engineer by education, knowledge facilitator by profession. His people-oriented approach has made him stick to training career. He is experienced in training and academia close to a decade. He imparts EBSCO & IEEE Xplore products training from campus to corporate people across all levels and research organizations like NAL, UGC affiliated Universities across South India. He was recognised by IEEE as one of the top Five training managers for best customer engagement services.

His expertise lies in product training and has done programs for MNC companies like Infosys, ATOS-SYNTEL, L&T, Honda cars, Panasonic, Aditya Birla group, etc. Teacher training programs are also done by him across Karnataka. He has conducted over eight hundred training programs for eighty thousand plus people till date. His training programs (both onsite and online) have been acknowledged well by some of the prestigious institutions from south India and it would certainly help in using EBSCO & IEEE products more effectively.

Advancing Technology for Humanity

ALL ARE CORDIALLY INVITED !!!

What is IEEE?

IEEE stands for the Institute of Electrical and Electronics Engineers. It is a professional organization and a leading global association dedicated to advancing technology and innovation. IEEE's mission is to foster the development and application of electrical and electronic engineering and computer science. The organization provides a platform for professionals in these fields to collaborate, share knowledge, and contribute to the advancement of technology.

IEEE produces a wide range of publications, conferences, and standards that are influential in various technological domains, including electronics, telecommunications, computer science, and more. It plays a crucial role in shaping and setting standards for the development and implementation of technologies worldwide.

IEEE is organized into multiple societies, each focusing on a specific technology or discipline within the broader field of electrical and electronic engineering. Members of IEEE include researchers, engineers, scientists, and professionals who are involved in various aspects of technology development

IEEE EXPLORE FOR STUDENT ENHANCING PROGRAM

It seems like you are interested in conducting an awareness session to enable students with IEEE project topics through IEEE Explore. This is a great initiative, as it can help students access valuable resources and stay updated on the latest advancements in technology. Here are some suggestions for conducting an effective IEEE Explore awareness session:

- 1. Introduction to IEEE:
 - Begin the session by providing an overview of IEEE, its mission, and its significance in the field of electrical and electronic engineering, computer science, and related disciplines.
- 2. Introduction to IEEE Explore:

• Explain what IEEE Explore is and how it serves as a digital library for IEEE publications, including journals, conference proceedings, and standards.

3. Benefits of IEEE Explore:

• Highlight the benefits of using IEEE Explore, such as access to cutting-edge research, project ideas, and the latest technological developments.

4. Navigating IEEE Explore:

• Walk the students through the IEEE Explore platform, demonstrating how to search for articles, browse publications, and find relevant resources for their projects.

5. IEEE Project Topics:

• Showcase a variety of project topics available through IEEE Explore. Highlight diverse areas within electrical and electronic engineering, computer science, and related fields. This can inspire students and help them identify potential project ideas.

6. Accessing IEEE Xplore:

• Provide information on how students can access IEEE Xplore, whether through their educational institution's library, IEEE membership, or other means.

7. Utilizing IEEE Standards:

• Emphasize the importance of IEEE standards in various industries. Explain how students can leverage these standards for their projects and research.

8. Interactive Session:

• Encourage interaction by allowing students to ask questions and share their thoughts. This can help tailor the session to their specific interests and needs.

9. Collaboration Opportunities:

• Discuss opportunities for collaboration, such as joining IEEE student branches, participating in conferences, and connecting with professionals in the field.

10. Provide Resources:

- Share additional resources, such as tutorials, guides, and documentation, to help students make the most of IEEE Explore.

By conducting a comprehensive awareness session, you can empower students with valuable information and resources, fostering a culture of exploration, innovation, and research within the academic community.

IEEE EXPLORE FOR STUDENT ENHANCING PROGRAM

If you're considering ways to enhance faculty engagement with IEEE (Institute of Electrical and Electronics Engineers), there are several strategies you can employ to ensure that faculty members make the most of the resources and opportunities provided by IEEE. Here are some suggestions:

1. Training Sessions:

 Conduct workshops or training sessions for faculty members to familiarize them with IEEE Explore, digital libraries, and other resources. Provide hands-on sessions to teach them effective search strategies and how to navigate the platform.

2. Highlighting Research Opportunities:

• Emphasize the research opportunities available through IEEE. Showcase the latest trends, publications, and conferences in their specific areas of interest. Encourage faculty to publish their research in IEEE journals or present at IEEE conferences.

3. Membership Benefits:

 Communicate the benefits of IEEE membership to faculty. This may include access to conferences, networking opportunities, and discounts on publications. Encourage faculty to become IEEE members to maximize their engagement with the organization.

4. Encourage Participation in IEEE Activities:

• Motivate faculty members to actively participate in IEEE activities, such as joining committees, reviewing papers for conferences, or contributing to the

5. Support for IEEE Student Branches:

• Encourage faculty to support and mentor IEEE student branches at the institution. Involvement with student branches provides faculty with opportunities to guide and inspire the next generation of engineers and researchers.

6. Facilitate Collaboration:

 Promote collaboration among faculty members within and outside the institution. IEEE provides a platform for interdisciplinary collaboration. Encourage faculty to explore collaborative projects, joint publications, and participation in crossdisciplinary conferences.

7. Access to Educational Resources:

• Make faculty aware of the educational resources available through IEEE, such as webinars, tutorials, and online courses. These resources can aid in professional development and staying current with industry trends.

8. Showcasing Success Stories:

• Share success stories of faculty members who have benefited from their engagement with IEEE. Highlight instances where participation in IEEE activities or publication in IEEE journals has positively impacted their careers and research.

9. Customized News and Updates:

• Help faculty stay informed by setting up personalized alerts and notifications for relevant IEEE publications and events. This ensures that they receive timely updates on topics of interest.

10. Institutional Membership:

• Consider obtaining institutional membership with IEEE. This can provide broader access to resources for all faculty members and students within the institution.

By actively promoting and supporting faculty engagement with IEEE, you contribute to the professional development and research endeavors of the academic community, fostering a culture of continuous learning and collaboration.
