INSTITUTION VISION

To emerge as a Center of Excellence in higher education by producing globally competent professionals and leaders in technology, innovation, entrepreneurship, and management, who contribute meaningfully to the advancement of society and humankind.

INSTITUTION MISSION

M1: To provide a dynamic and inclusive learning environment that promotes excellence in emerging technologies and interdisciplinary education.

M2: To nurture a state-of-the-art teaching–learning ecosystem supported by innovation, research, and a strong R&D culture.

M3: To foster effective collaboration and networking with alumni, industry, reputed institutions, and other stakeholders for knowledge exchange and professional growth.

M4: To inculcate ethical values, social responsibility, and lifelong learning, encouraging commitment towards societal development.

DEPARTMENT VISION

To impart futuristic knowledge in Computer Science and Engineering and to produce highly skilled, innovative, and socially responsible professionals capable of contributing to industry, research, and global technological advancement.

DEPARTMENT MISSION

M1: To promote strong academic growth by providing sound foundational knowledge and exposure to state-of-the-art technologies, fostering excellence in research and development.

M2: To create a stimulating learning environment that develops analytical thinking, problem-solving abilities, and proficiency in advanced programming, using modern tools and technologies.

M3: To encourage collaborative and experiential learning through real-time projects, enhancing teamwork, communication, and interpersonal skills for improved employability.

M4: To instill high ethical standards, professional values, and social responsibility through active societal engagement.

SDG GOALS

SDG 4 - Quality Education
Primary SDG
Promotes technical education and digital literacy
Encourages problem-solving, logical thinking, and coding proficiency
Provides experiential and outcome-based learning beyond classrooms

SDG 8 - Decent Work and Economic Growth
Enhances employability skills in software development
Prepares students for industry-relevant roles
Supports skill development for future digital careers

SDG 9 - Industry, Innovation, and Infrastructure
Strongly aligned Encourages innovation through technology Fosters a culture of coding, creativity, and problem-solving Supports development of digital infrastructure and solutions

SDG 17 - Partnerships for the Goals
Encourages collaboration, teamwork, and peer learning
Opens opportunities for academia–industry interaction

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING
&
INFORMATION TECHNOLOGY

EVENT NAME : INNOVATE XPRESS **EVENT TYPE :** MINI-HACKATHON
PROPOSED DATE & TIME : 12TH SEPTEMBER,10:00 AM **DURATION :** 1 DAY
VENUE : 109 LAB ,1ST FLOOR,BLOCK-1 **EXPECTED AUDIENECE :**
STUDENTS OF 1ST , 2ND & 4TH YEAR CSE&IT. **JURY PANEL :**
MR.DR.VIVEKANANDHAN,MRS.DR.KANDE.ARCHANA,
MRS.DR.G.SRAVANTHI.

EVENT OBJECTIVES

1. **Promote Logical & Analytical Thinking:**
- Encourage participants to solve problems using speed, accuracy, and logical reasoning.
2. **Enhance Coding Skills:**
- Provide a platform for students to practice and showcase programming abilities in C, Python, and Java.
3. **Test Problem-Solving Efficiency:**
- Challenge participants with real-time coding tasks that test optimization, efficiency, and in-depth understanding.
4. **Encourage Innovation & Creativity:**
- Motivate students to think outside the box while solving problems with unique approaches.
5. **Prepare for Competitive Programming:**
- Develop readiness for hackathons, coding contests, and technical interviews by simulating a competitive coding environment.

EVENT DESCRIPTION

Innovate Xpress is a flagship coding competition organized by the Department of Computer Science & Engineering and Information Technology, Malla Reddy College of Engineering. The event is designed to identify, nurture, and showcase programming talent among students, providing them with a platform to test and refine their coding abilities.

It comprises two progressive levels:

Level 1 (Warm-up Round):
Focuses on speed, accuracy, and logical reasoning where participants solve short problems using C, Python, or Java. This stage is intended to warm up participants and evaluate their problem-solving pace.

- **Level 2 (Advanced Coding Challenge):**
Aims at testing the depth of technical knowledge, efficiency, and optimization skills of participants. This round pushes students to develop well-structured, optimized, and scalable solutions.

- The competition emphasizes real-world coding practices, bridging the gap between academic knowledge and practical problem-solving.
- By simulating a competitive programming environment, the event prepares students for hackathons, coding competitions, and placement drives, where problem-solving speed and efficiency matter most.
- Innovate Xpress not only evaluates technical expertise but also promotes critical thinking, innovation, and resilience in tackling challenges.
- The event encourages a spirit of healthy competition and peer learning, helping students to collaborate, exchange ideas, and grow together as a community of problem solvers.

Ultimately, Innovate Xpress serves as a launchpad for budding programmers, motivating them to aim higher, enhance their coding proficiency, and contribute to technological innovation.

TARGET AUDIENCE & PARTICIPATION

- STUDENTS FROM 1ST AND 2ND YEAR CSE AS WELL AS 4TH YEAR STUDENTS FROM ALL DEPARTMENTS ARE ELIGIBLE TO PARTICIPATE. EXPECTED NUMBER OF PARTICIPANTS = 100+

-

INVITATION

We extended formal invitations toour esteemed Principal Sir, HOD Sir, and Head of ECE , Head of DS , seeking theirvaluable permission and support for the Innovate Xpress Mini Hackathon. Their approval and encouragement paved the way for a successful event, and we're gratefulfor their trust in our initiative.

# INAUGURATION

The Innovate Xpress Mini H ackathonwas inaugurated in thepresence of our esteemed Techie Hub officials, including President , Secretary , and Vice-President , along with our dedicated Faculty Coordinators and enthusiastic student Coordinators. The ceremony set the tone for an engaging and informative Mini Hackathon, highlighting the collaborative spirit of our tech community.
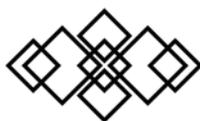

COMPETITION

Participants collaborated in teams toideate, design,and develop functional web applications, gaining valuable experience in coding, version control, teamwork, and project management. The competition not only encouraged creativity and innovation but also promoted the importance of contributing to open source communities. By the end of the Mini Hackathon, students showcased their applications, demonstrating both technical skills and problem-solving abilities. The best projects were recognized for their design, functionality, and effective use of open source resources. This initiative empowered students to take their first steps into the open source ecosystem, preparing them for future endeavors in software development and community collaboration.
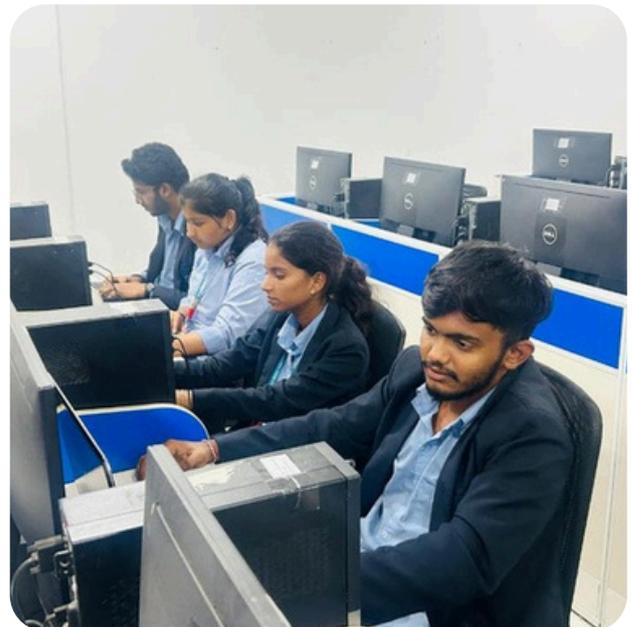

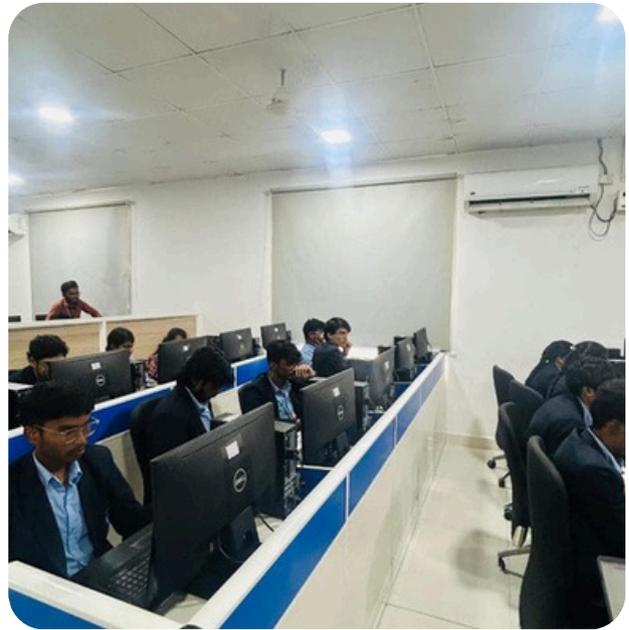

JURY

The Innovate Xpress event was evaluated by a distinguished panel of juries—Mr. Vivekanandan, Ms. Pushpa Joshi, Ms. Archana, Ms. Sravanthi, and Ms. Sufiya. With their diverse expertise and keen insights, the jury members ensured a fair and thorough assessment of the participants, encouraging innovation, creativity, and technical excellence throughout the event.
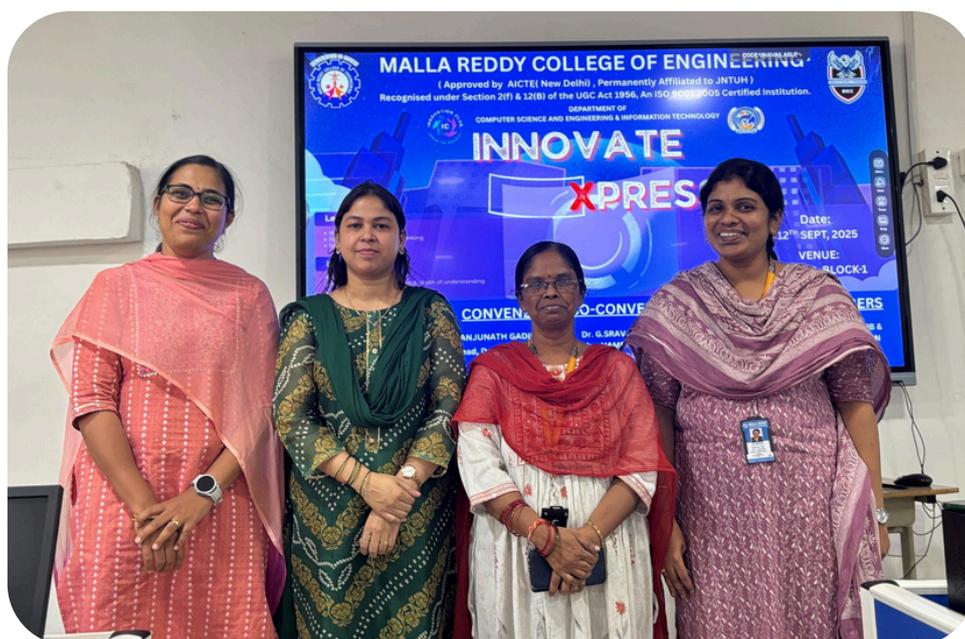

EVALUATION CRITERIA

Round 1 – Warm-up (Speed & Logic):

- **Logical Accuracy (30 pts):** Correctness of outputs for given problems. **Speed & Efficiency (40 pts):** Time taken to solve problems and handle test cases. **Designing & Presentation(30 pts):** Clarity, creativity, and structured presentation of the solution.

-

Round 2 – Advanced Coding Challenge:

- **Technical Implementation (50 pts):** Quality of code, functionality, and proper application of programming concepts.
- **Optimization & Efficiency (30 pts):** Handling of time/space complexity, edge cases, and scalable solutions.
- **Creativity & Problem-Solving Approach (20 pts):** Innovative ways of structuring the solution, not just brute force.

Evaluation Process:
The evaluation of Innovate Xpress followed a two-stage process to ensure fairness, transparency, and credibility in the final results.

- **Round 1 – Faculty Evaluation:**

Faculties reviewed all submissions, assessed them based on creativity, relevance, and adherence to the problem, and shared the compiled zip files with the organizing team.

- **Round 2 – AI Evaluation:**

An AI system filtered the submissions, analyzed key parameters (accuracy, innovation, quality), and declared the winners through an unbiased automated process.
This dual-layered evaluation mechanism—combining human expertise with AI efficiency—helped ensure that the best-performing teams were recognized fairly.

Evaluation Criteria:
Our project will be evaluated based on the following parameters:
1. Innovation & Creativity – 30%
2. Design & User Experience – 20%
3. Technical Implementation – 20%
4. Impact & Usefulness – 20%
5. Completeness – 10%

PRIZE DISTRIBUTION

The prize distributionceremony was on e ofthemost anticipated moments of the Innovate Xpress Mini Hackathon. As part of the proceedings, the winners and runners-up were invited onto the dais to briefly present and explain their projects, giving the audience a glimpse into their innovative ideas and technical execution. Their presentations showcased creativity, problem-solving skills, and effective use of open source technologies, earning well-deserved appreciation from both the jury and the audience. Following the presentations, awards and certificates were presented to the winners and runners-up by the esteemed guests, marking a proud moment for the participants and a successful conclusion to the competition. This segment not only recognized excellence but also inspired other students to aim high and participate actively in future events.

ACE PERFORMER

The **winner M. Mahesh Kumar Reddy** won Innovate Xpressfor presenting an innovative and impactful idea that address ed a major academic challenge faced by students — the frequent loss of lab notes, screenshots, and experiment results before examinations. The proposed digital lab management platform offers a secure and organized solution for storing all lab-related materials in one place, ensuring easy access and preventing data loss.

ELITE PERFORMER 1

The **Runner-Up 1 Mudavath Akshara** for presenting a solution addressing the challenge students face in choosing the right career path, such a s AI, Web Development, Cybersecurity, or Data Science. The project proposed a personalized career guidance platform that provides tailored recommendations, resources, and mentorship to help students make informed decisions and confidently plan their future careers.

ELITE PERFORMER 2

The **Runner-Up 2 Deeravath Jagadish Nayak** in InnovateXpress for presenting a solution to the challenge of managing attendance and marks, which are often maintained manually on paper or Excel. The project proposed a digital academic management system that allows teachers and class representatives to efficiently record, update, and search attendance and marks, improving accuracy, accessibility, and overall academic workflow.

ORGANIZING TEAM

Captured after the successful completion of the Innovate Xpress, this group photo showcases the hard-working and dedicated organizing team who made the event a grand success. With bright smiles and a sense of accomplishment, the team members— comprising both male and female students—pose proudly together. Dressed in casual college attire, they stand united in front of a projector screen displaying the Mini Hackathon title.

K.MANISHA	22Q91A0598	CSE/B/4th	kallemmanisha07@gmail.com	Students interested in cybersecurity rarely find safe environments to practice ethical hacking, and practicing on real websites is illegal.	https://drive.google.com/open?id...
G.krishna Koushik	24q91a0580	Cse b 2nd year	deeravath80@mrce.in	Students spend hours formatting resumes instead of focusing on content.	https://drive.google.com/open?id...
EERAVATH JAGADISH NAYAK	24Q91A05AJ	CSE/F/2025	deeravathjagadish31@gmail.com	Teachers and class representatives still maintain attendance and marks on paper or Excel, making it difficult to update or search.	https://drive.google.com/open?id...
DADIDALA SAMATHA	22Q91A0586	CSE/B/4	dadidalasamatha@gmail.com	Students often feel lost about which career path to choose (AI, Web Development, Cybersecurity, Data Science) and lack personalized guidance.	https://drive.google.com/open?id...
MUZAMIL HUSSAIN	24Q91A05X9	CSE-E	24Q91A05X9@mrce.in	Students frequently miss assignment deadlines or lab submissions because they forget dates and lack proper reminders.	https://drive.google.com/open?id...
Madavath Akshaya	25Q91A67B1	CSD/B/Ist year	9100116318	Students often feel lost about which career path to choose (AI, Web Development, Cybersecurity, Data Science) and lack personalized guidance.	https://drive.google.com/open?id...
Leber	25Q91A6692	CSM/1ST YEAR	laki.saeber@gmail.com	Many students often waste time rewriting the same code (like sorting, searching, or DB connections) because they lose track of old snippets.	https://drive.google.com/open?id...
m.mahesh kumar reddy	25Q91A66B2	csm-b/Ist year	mmaheshreddy955@gmail.com	Many students lose their lab notes, screenshots, and experiment results before exams, leading to stress and repetition of work.	https://drive.google.com/open?id...
YANAGANDULA KARTHIK	24Q91A0522	CSE/E/2	yenagundulak.arthik@gmail.com	Students often feel lost about which career path to choose (AI, Web Development, Cybersecurity, Data Science) and lack personalized guidance.	https://drive.google.com/open?id...
YASALA SHIVANI	25Q91A04A1	ECE/B/I	yasalashivani27@gmail.com	Students spend hours formatting resumes instead of focusing on content.	https://drive.google.com/open?id...
