- ☑ **Mr. Sailesh Ganduri**, Dynamic Entrepreneur, Founder of FamNutra Millet Foods Private Limited(Chief Guest & Speaker)
- ☑ **Mr. Akash Upadhyay** – Senior Partner Success Executive @HCL Tech |client Acquisition.

## Program Highlights

### 1. Inaugural Session

The event began with an opening address by **Dr. Sateesh Nagavarapu** -Dean EDC, On the occasion of World Entrepreneurs' Day, our institution hosted a landmark event to celebrate the spirit of entrepreneurship and officially announce our strategic partnership with HCLTech, Pearson India, and MeitY Startup Hub (Government of India) for the "ARISE FOR YOU™" national initiative. The event was graced by the esteemed presence of **Mr. Sailesh Ganduri**, Dynamic Entrepreneur, Founder of FamNutra Millet Foods Private Limited & **Mr. Akash Upadhyay**, Senior Partner

Success Executive from **HCLTech**, who officially launched the program and delivered a powerful keynote address. This partnership marks a significant milestone in our commitment to fostering a culture of innovation and empowering the next generation of business leaders. This event is a wonderful opportunity for students to gain insights from experienced entrepreneurs and industry leaders who will share their journey, challenges, and success stories. The session will also highlight the importance of innovation, leadership, and creative thinking in today's competitive world.

We believe this lecture will be valuable for students from all disciplines who aspire to become entrepreneurs or wish to understand the entrepreneurial ecosystem better.

### **Outcomes**

- Increased awareness of entrepreneurship as a career option.
- Enhanced knowledge of innovation practices and startup tools.
- Motivation and mentorship for students to pursue their ideas.
- Creation of networking opportunities among participants, mentors, and investors.

Next the session handover to **Dr. V.Vivekanandhan**, Dean R&D &IIIC -MRCE,

### **Objective:**

- Help participants think creatively and come up with new ideas.
- Teach the basics of starting and running a business.
- Encourage solving real problems with smart solutions.
- Build skills like teamwork, communication, and leadership.
- Connect with mentors and learn how to turn ideas into real businesses.

### **Startup Showcase**

A few student-led startups and innovations were showcased, giving participants a glimpse into real-life entrepreneurship efforts within their peer group.

Next the session handover to **Dr. M. Ashok**, Principal, MRCE,

This report summarizes the key takeaways from the "Igniting Ideas" Session, a major event focused on entrepreneurship and innovation.

The lecture brought together entrepreneurs, students, and industry leaders to discuss the future of business. The main goal was to show how an entrepreneurial mindset can drive change, not just in startups but in any organization. A central theme was the importance of a **growth mindset**, which involves creativity and taking smart risks. Speakers emphasized that this mindset is crucial for everyone, helping them turn problems into opportunities. Another key focus was the role of technology, like **AI and data**, in transforming industries. However, speakers stressed the need for a **human-centric approach**, ensuring technology solves real-world problems. Discussions also highlighted the importance of a strong support system, or **ecosystem**. This includes help from schools, government, and other businesses. The conference also celebrated **social**

**entrepreneurship**, where businesses focus on both profit and social good. A special emphasis was placed on supporting women and rural entrepreneurs to foster a more inclusive economy. Notable sessions included a keynote from a successful founder who shared a journey of resilience. A panel of experts discussed disruptive trends and the need for companies to adapt quickly. A practical workshop taught attendees how to build a culture of innovation within their own teams. The event taught me that innovation is a continuous process, not a one-time event. It's powered by human creativity, not just technology. I was particularly inspired by the focus on using business as a force for positive change.

In conclusion, the session was a powerful platform for sharing knowledge and networking. It reinforced that the future belongs to those who are willing to think differently. We should use these insights to encourage an entrepreneurial spirit in our own work.

In forenoon Session is handover to **Mr. Sailesh Ganduri**,

### **Key Takeaways from the Lecture**

Mr. Ganduri's lecture was structured around his own experiences, providing a powerful narrative that underscored several critical lessons in entrepreneurship and innovation.

**1. The Power of Purpose and Passion:** Mr. Ganduri began by sharing his motivation for starting FamNutra. He explained that his journey was not driven by the desire for quick profits, but by a deep-seated purpose to address public health issues, particularly the rising rates of diabetes. Having worked in the pharmaceutical industry, he understood the limitations and side effects of conventional medicine. His passion for creating natural, preventive health solutions, particularly using millets, was the driving force behind his venture. He stressed that a strong purpose is what sustains an entrepreneur through difficult times.

**2. Resilience in the Face of Setbacks:** A significant portion of the lecture was dedicated to Mr. Ganduri's "tapestry of trials." He openly discussed being scammed out of a large sum of money and even being fired from his job. He shared how an initial product, Korramill, failed to gain traction in the market. Instead of giving up, he treated these failures as stepping stones. He recounted how these setbacks forced him to introspect, learn, and pivot, ultimately leading him to the innovative concept of fermented millet drinks. This part of his story resonated strongly with the audience, demonstrating that setbacks are a natural and often necessary part of the entrepreneurial journey.

**3. Innovation at the Intersection of Tradition and Technology:** Mr. Ganduri's innovation lies in his ability to blend traditional wisdom with modern technology. He shared how he leveraged his pharmaceutical background and a deep understanding of millet's nutritional value to create Bliss Body. His company, FamNutra, is noted for being the first to launch a sugar-free, millet-based fermented drink in India. This highlighted his key message: true innovation is about finding a unique solution to an existing problem by thinking creatively and combining different fields of knowledge.

**4. The Importance of an Unwavering Focus on Quality:** He emphasized that in the health and wellness space, a product's taste and quality are non-negotiable. He shared how Bliss Body's success is due to its unique formulation that offers health benefits without compromising on taste. He advised future entrepreneurs to always prioritize a product that genuinely provides value and is created with an unwavering focus on quality.

### **Q&A Session and Conclusion**

The lecture was followed by a dynamic question-and-answer session. Mr. Ganduri fielded questions from students about market entry strategies, funding, and personal branding. He offered practical advice, encouraging them to start small, validate their ideas, and build a strong network.

In conclusion, Mr. Sailesh Ganduri's guest lecture was more than just an informational talk; it was a powerful narrative of resilience, purpose, and ingenuity. His journey from professional setbacks to pioneering a new category of functional beverages served as a compelling case study for the audience. The lecture successfully "ignited ideas" by demonstrating that an entrepreneurial spirit is about turning passion into purpose and setbacks into success. It left the audience with the crucial understanding that with the right mindset, anyone can build a future in entrepreneurship and innovations.

In afternoon Session is handover to **Mr. Akash Upadhyay,**

Mr. Upadhyay introduced **ARISE FOR YOU™** as a transformative national initiative designed to empower students with essential entrepreneurial skills, global certification, and invaluable real-world business exposure. He highlighted that the program is a powerful collaboration between HCLTech, Pearson India, and the MeitY Startup Hub, aimed at creating a robust ecosystem for student-led innovation.

He outlined the key benefits of the partnership for both the institution and its students:

- **For the Institution:** He positioned our institution as a forward-thinking leader in innovation and youth development, gaining national recognition as a top entrepreneurial campus. He emphasized that this collaboration provides a unique opportunity to work with global leaders like HCLTech and Pearson, and a government body like MeitY Startup Hub.
- **For Students:** Mr. Upadhyay detailed the tangible benefits for students, including:
  - Access to high-quality training to learn how to build and grow a business.
  - The chance to earn a prestigious global **Entrepreneurship and Small Business (ESB) certification** from Pearson.
  - Opportunities to compete in national pitch challenges.
  - The possibility of winning significant grants and receiving incubation support.

He concluded his address by extending a special challenge to the students, announcing that the top student projects stand a chance to win grants of **INR 10 Lakhs, INR 7 Lakhs,**

**INR 5 Lakhs, and INR 2 Lakhs.** Furthermore, the most promising projects could secure further incubation support from MeitY Startup Hub.

### **3. Q&A and Interactive Session**

Following the formal launch, Mr. Upadhyay participated in a lively Q&A session with the students and faculty. He addressed queries regarding the program's structure, selection process, and the mentorship opportunities available. The session provided a clear understanding of how students can leverage the ARISE FOR YOU™ platform to turn their ideas into successful ventures.

### **4. Conclusion & Vote of Thanks**

The event concluded with a vote of thanks, acknowledging Mr. Akash Upadhyay for his time and invaluable insights. The partnership with ARISE FOR YOU™ marks a new chapter for our institution. It reinforces our commitment to equipping our students with the skills and resources needed to thrive in a competitive global economy. This initiative aligns perfectly with our vision of not just educating students, but also empowering them to become job creators and innovators who will shape the future. We are confident that this collaboration will inspire a new wave of entrepreneurs from our campus.

## Action Taken Report

**Event:** *Igniting Ideas: Building a Future in Entrepreneurship and Innovations*

**Date:** August 21, 2025 (World Entrepreneur's Day)

1. The event was successfully conducted to celebrate World Entrepreneur's Day.
2. Guest speakers shared their entrepreneurial journeys and insights.
3. Workshops were organized to teach innovation and startup skills.
4. A startup showcase allowed students to present their ideas.
5. Over 168 participants attended from various institutions.
6. Feedback was collected and was overwhelmingly positive.
7. A student entrepreneurship club was proposed post-event.
8. Mentorship opportunities were initiated for selected participants.
9. All sessions were documented for future learning.
10. The event inspired students to explore entrepreneurship and innovation.
